Android Auto

USER GUIDE

SET UP VIA USB CABLE

You can connect your Android device to your vehicle's Infotainment system using a USB cable. To do this,

plug the USB cable into the USB-A charging port as described in your handbook.

(For trouble-free use, use an undamaged original cable from the phone manufacturer without a USB adapter or a corresponding cable.)

SET UP VIA Wi-Fi

STEP 1

Select "ANDROID AUTO" on the display of your Infotainment system. After selecting this, the screen in following will appear.

Note: Please ensure that Bluetooth and Wi-Fi are both enabled on your phone.

STEP 2

If you want to use wired Android Auto, plug your Android phone into the USB-A charging port. To use wireless Android Auto, press "Connect"

STEP 3

Go to pair new device on your smartphone. The vehicle system will search for your device, if it appears on the display of your Infotainment system, please select it.

STEP 4

You will receive a request on your Android smartphone asking whether you would like to connect to the vehicle Infotainment system. If the displayed pairing code matches the ID displayed on your smartphone, select connect and confirm the connection on your smartphone.

After the pairing code has been accepted and pairing was successful, the pop-up will be displayed automatically. After this pop-up has been accepted Android Auto will begin automatically.
